# TECHNICAL INFORMATION

## ENGINE

### Supplier

4 Piston  
Honda K20

### CONFIGURATION

Inline 4,  
Turbocharge, Dry  
Sump, Race spec

### POWER OUTPUT

450- 500 bhp

### FUEL TYPE

RON 105

### TORQUE

550 Nm

### REV LIMIT

8,000 RPM

## CHASSIS

### FRONT TRACK

1605.9 mm

### REAR TRACK

1510.5 mm

### WHEELBASE

3115 mm

### CHASSIS

Dallara SF23

### OVERALL LENGTH

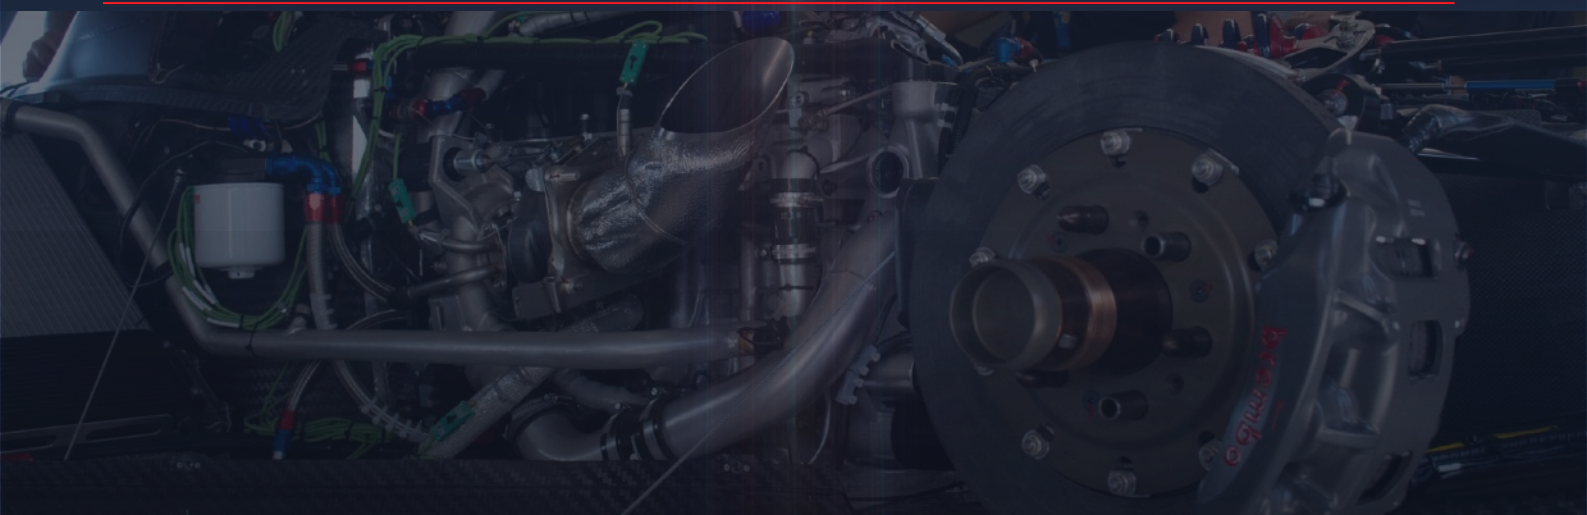

5235.9 mm

### OVERALL WIDTH

1920.7 mm

### WEIGHT

680 kg (dry)

## ELECTRONICS

### DASHBOARD

Cosworth on steering wheel

### ENGINE ECU

Motec

### DATA LOGGER

Cosworth Badenia

## TYRES

### FRONT

270/620R13 13 x 10.5J

### TYRE TYPE

Yokohama (Pirelli TBC)

### REAR

360/620R13 13 x 15.0J

# WHAT WE OFFER

## Private Test Days

- ❖ Exclusive private test days tailored for high-performance development and driver refinement
- ❖ Hosted at premier F1-grade venues with access to multiple circuit configurations
- ❖ Limited availability ensures a focused, distraction-free environment
- ❖ Dedicated support crews provided for seamless operations
- ❖ Ideal for data acquisition and driver development
- ❖ Not public or publicised – designed to be tailored, technical, and elite

## Turn Key Solution

- ❖ Turnkey solution – AFM handles the car, crew, and circuit
- ❖ Teams and drivers simply arrive and drive – focus solely on performance
- ❖ No need to ship cars, equipment, or personnel
- ❖ Full-service support includes setup, engineering, logistics, and hospitality
- ❖ AFM removes complexity for a seamless testing experience
- ❖ Delivered at world-class F1-standard circuits in the GCC

# WHAT WE OFFER

## Ex F1 Engineers & Mechanics

- ❖ Trackside team led by ex-Formula 1 engineers and mechanics
- ❖ Decades of top-level motorsport experience
- ❖ Operated with world-class drivers and cutting-edge technology
- ❖ Expertise in high-pressure, elite racing environments
- ❖ Known for attention to detail, technical precision, and performance focus
- ❖ Support includes chassis setup, data analysis, and race engineering
- ❖ Delivers a factory-level standard rarely found outside official programmes

## Multi-Car, Multi-Driver

- ❖ Multi-driver, multi-car, Multi-day test days designed for flexibility and efficiency
- ❖ Supports driver rotation through a single chassis or parallel multi-car running
- ❖ Infrastructure and technical support provided to maximise track time
- ❖ Includes tailored run plans, on-site engineering, and coordinated operations
- ❖ Enables meaningful testing, comparison data, and driver development
- ❖ Ideal for driver academies, junior programmes, and talent evaluation
